What is a CSA? "CSA farmers receive a set fee (from you - the consumer) prior to the start of the growing season. In return, you receive shares (produce) in the farm's bounty and you also share the risks due to weather and other factors beyond the control of the farmer." www.csafarms.ca

We Want to Know! What you liked and what you saw on the tour. We also want to reduce our carbon footprint by planting a tree(s) that is equal to the KM's you traveled. **Please click here to fill out a survey to let us know.**
